

## High School Senior Portraits

PARENTS: High School Seniors deserve a special portrait before graduation. The high school senior portrait can be used for yearbook as well as print packages for family and friends.

And contrary to what you may be told, an Ontario law defends your right to use the photographer of your choice for your senior portraits, so don't trust Life Touch or other national portrait chains for this! We will take a better variety of images with more professional results, in the studio or at your choice of the many beautiful locations, in exactly the right light at the right time of day!

We will photograph the high school student at your local beach at sunset, at home, at school, on a ball field, in a theatre, or in our studio.

We encourage you to bring along props and outfits that reflect your interests, including pets, sports equipment and musical instruments. Allow 30-40 minutes for this session.

### *Session Options:*

All session fees include 1 retouched digital file sent to your **email** contact.

Location Portrait – \$145

Studio Portrait – \$125

\*Senior *Kwik Shots* – \$85

\*includes fewer shots

### **After the Session: Selecting the Photos**

A viewing appointment will be arranged in the studio at your convenience in the days after the session or can be viewed on our password protected online Gallery.

A variety of shots are taken including close ups and full length portraits.

You may want to change clothes during the session, or keep it simple with just one outfit.

We recommend solid color clothing, but we also know that students love to express themselves in their wardrobe, so anything goes for this session!

Our Print Packages start at \$85.
