

WHAT IS LIFESTYLE PHOTOGRAPHY?

Wikipedia says: **Lifestyle photography** is a kind of [photography](#) which mainly aims to capture portrait/people in situations, **real-life** events or milestones in an artistic manner and the art of the everyday. The primary goal is to **tell stories about people's lives** or to inspire people in different times. Thus, it covers **multidisciplinary types of photography** together. A lifestyle photographer is not only a portrait or people photographer and loves/enjoys photography as **art in everyday** life but is believed to be talented in photography that can also do well in other **many disciplines of photography at a time** such as landscape, street photography, fashion, wedding and even wildlife with one's unique vision to inspire people's life.

I say: Lifestyle Photography is capturing the beauty in natural moments, the emotion, the rawness... the art hidden in the in-between moments.

Yes, I can guide you based on the light and the space I want to photograph you in... I may even set you up into a semi posed situation if you need some guidance.... then I will wait, wait for you to relax and melt into yourself or your loved ones. This is when I will shoot!

I'm in love with **environmental portraiture**..... let me capture you in your favorites space!
(your kitchen, library, favorite chair)
